

List of Reptile Species

Lista de Especies de Reptiles

Updated August 2018 / Actualizado agosto de 2018

The following list represents roughly one half of the species expected for the Reserve. Explanations for so many missing species include largely nocturnal activity patterns, low population sizes, and cryptic coloration.

La lista actual de reptiles representa como la mitad del total esperada en la Reserva. Unas explicaciones para los ausentes incluyen períodos nocturnos de actividad, poblaciones pequeños y patrones y colores crípticos.
